

SPLIT-LEVEL HOMEOWNERS

Clean-Dry-Warm Storage adds value and convenience:

Most owners of split level homes get to see biggest benefits of this system, because of existing dimensions of their existing crawlspaces. These 300-500 sqft crawls are musty, wet, and typically unusable spaces. We transform the crawl into a safe and usable storage space for all your seasonal storage and heirlooms items.

HIGH TECH WATERPROOFING, LLC

**NEED 300-500 sqft
of new STORAGE
NOW??
